Prescribed Grazing (Code 528): The prescribed grazing standard was reviewed and updated to reflect current agency policy and science. Changes were made to clarify and recognize the benefits of prescribed grazing on soil health. Clarified “practice description” by adding “. . . with the intent to achieve specific ecological, economic, and management objectives.” In “purpose,” the concept of plant community “structure” was added when addressing plant communities, and added verbiage identifying the benefits of this practice to soil health.

Restoration of Rare or Declining Natural Communities (Code 643): Changed title from Restoration and Management of Rare and Declining Habitats to Restoration of Rare or Declining Natural Communities. The term “habitats” is changed to “natural communities” to encompass not only wildlife resource concerns, but also activities targeting a unique plant community. Unique to restoration efforts of rare and declining natural communities, the restoration of the abiotic conditions is typically necessary, prior to restoration of biotic conditions. Broadened the scope to include abiotic restoration and restoration of plant communities.

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[B–67–2016]

Foreign-Trade Zone (FTZ) 82—Mobile, Alabama; Notification of Proposed Production Activity; Airbus Americas, Inc. (Commercial Passenger Jet Aircraft); Mobile, Alabama

The City of Mobile, Alabama, grantee of FTZ 82, submitted a notification of proposed production activity to the FTZ Board on behalf of Airbus Americas, Inc. (Airbus), located in Mobile, Alabama. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on September 29, 2016.

Airbus already has authority to produce commercial passenger jet aircraft within Site 1 of FTZ 82. The current request would add additional foreign status materials/components to the scope of authority. Pursuant to 15 CFR 400.14(b), additional FTZ authority would be limited to the specific foreign-status materials/components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Airbus from customs duty payments on the foreign-status materials/components used in export production. On its domestic sales, Airbus would be able to choose the duty rates during customs entry procedures that apply to commercial passenger jet aircraft (duty rate free) for the foreign-status materials/components noted below and in the existing scope of authority. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The materials/components sourced from abroad include: Talcum powder; oil-based preservatives; engine, turbine and gear box oils; petroleum jelly; glycerol; non-aqueous paints and
